

**Water -**  
**Finding and purifying water is one of the most important survival skills. You can learn signs that can help you find water. Use fire.**

**Shelter**

**Without proper protection, survivors can be exposed to dehydration, fatigue, hypo/hyperthermia, predators, and more.**

**First aid -**  
**Teach children basic medical needs and how to act in situations they may encounter.**

**Fire lighting**  
**Starting and maintaining a fire provides warmth and light, which are both important in a critical situation. Learn how to make homemade firestarters before going camping.**

**Foraging**  
**- can help children understand and recognize plants around them, learn survival skills, and enjoy finding food.**

**Reading a landmarking and maps**  
**- is a survival skill that can help you discover new places and find your way**

**Other survival skills for kids include:**  
**Paying attention to your surroundings,**  
**Identifying plants, animal tracks, and waste**  
**Hunting and foraging for food**  
**Staying safe in water**  
**Making a survival kit**
