

Dear \_\_\_\_\_ [Toy Company Name], \_\_\_\_\_ (date)

My name is \_\_\_\_\_ [your name], and I'm a huge fan of your toys!

My favorite toy you make is \_\_\_\_\_, because \_\_\_\_\_  
\_\_\_\_\_ and I've learned so much and had  
so much fun with it.

But I have something on my mind that I really wanted to tell you. I'm learning a lot about our planet and how important it is to take care of it. One of the things I'm worried about is plastic pollution. All that plastic we use ends up in our oceans and hurts the animals and the environment.

So, here's the thing: I would really love it if you could make more toys from recycled plastic instead of new plastic. Even if they're not as perfect as your usual toys, it would mean so much to me to know that my toy was helping to clean up the planet instead of adding to the problem.

I know it might be a challenge, but I think it would be really cool if you could do it. You could even make it a special line of "Earth Hero" toys or something like that, so everyone knows they're making a difference. I'm sure lots of kids like me would want to get those!

Maybe something like this?

Thank you so much for listening to me. I really hope you'll consider my idea. I can't wait to see what amazing things you create next!

Best wishes,

\_\_\_\_\_ [Your Name]
