

# Night Scavenger Hunt

What is it that makes the dark scary?

 <p><b>draw the moon phase</b></p>	 <p><b>medium sized night creature</b></p>	 <p><b>little dipper - note the Northern Star</b></p>
 <p><b>small night creature</b></p>	 <p><b>night sounds! (only available at night!!)</b></p>	 <p><b>night lights! (only available at night!!)</b></p>
 <p><b>something round</b></p>	 <p><b>glowing creatures</b></p>	 <p><b>interesting silhouettes or shadows</b></p>

## Safety First

**that being said - the fear is real, and it has to do with the unknown. Knowing more about what is in the dark will lower the fear, but it is justified and doesn't need to go all the way away**
